⚠️ WARNING

To Parents and Carers: Please read the following safety information carefully before use.

For domestic use only.

Place on a level indoor surface, at least 2 metres away from fences, buildings, power lines and other obstacles.

Do not place on soft surfaces such as sand, wood chips or rubber.

Not suitable for children under the recommended age.

Use under adult supervision.

Do not throw or misuse the product.

Do not stand or climb on the blocks.

Do not use near fire or other heat sources.

Do not insert fingers or other objects into door gaps, between blocks or around protrusions.

For safety, the blocks are designed to come apart when excessive force is applied.

Do not lean on, sit on, jump on, or jump off assembled structures.

Do not shake or knock down stacked blocks.

Check the product regularly and discontinue use at the first sign of damage or deformation.

Dispose of all plastic packaging immediately after opening.

Product specifications may change without notice as part of ongoing product improvements. The product may differ slightly from that shown, and minor variations may occur between individual products.

Storage Instructions and Precautions

Do not move the product while assembled, as this may cause damage. Always assemble it in the place where it will be stored.

Do not stack the product too high for storage, as it may tip over.

Do not expose to direct sunlight.

Care and Maintenance

Do not wash, boil, microwave or sterilise this product (including with disinfectants or antibacterial wipes). These methods may damage the product.

Before and after use, wipe clean with a well-wrung damp cloth.

Important Safety Information

1. Ensure there is enough space before assembling the product. Once assembled, do not move it.
2. Do not use the roof as a seesaw.
3. Do not bend or twist long parts (such as the entrance or roof), hang from the product, or place excessive weight on it.
4. The door opens in one direction only. Do not force it open the other way.
5. To open and close the door, position it between the entrance and the roof. Do not force, shake or lean on the door.
